APPLICATIONS

- **(A1)** – This product is acceptable for use as a general cleaner on all surfaces in and around food processing areas.
- **(A2)** – This product is acceptable for use as a cleaner for use in soak tanks or with steam or mechanical cleaning devices in and around food processing areas.
- **(A4)** – This product is acceptable as a floor and wall cleaner in and around food processing areas.
- **(A8)** – This product is acceptable as a degreaser or carbon remover for food cooking or smoking equipment, utensils, or other associated surfaces in and around food processing areas.
- **(B1)** – This product is acceptable as a laundry product for fabrics contacting food. This product may be used on fabric that contacts meats or poultry products, directly or indirectly, provided that the fabric is thoroughly rinsed with potable water at the end of the laundering operation.
- **(C1)** – This product is acceptable for use in inedible product processing areas, non-processing areas, and/or exterior areas of food processing establishments provided that it is not used to mask odors resulting from unsanitary conditions, and that any characteristic odour or fragrance does not penetrate into an edible product area. When used on equipment that will be returned to a food processing area, the product must be completely washed off and rinsed with potable water before returning to the processing area.
- Liquid can be easily and economically diluted for use in floor scrubbers, dip tanks, carpet extractors, pressure washers, parts washers, steam extractors and foamers
- Use of this product is not intended for direct food contact.
- Use of this product in food processing or handling facilities requires that all food products and packaging materials be removed or protected prior to product use.
- A potable water rinse of cleaned surfaces is required after use of this product.
