

TYPICAL CHARACTERISTICS:

Load Capacity ----- 45kg
 Fluid Capacity ----- 71.9L
 Pump ----- 240 volt industrial grade
 Heater ----- 40°C, 1000-watt

DIMENSIONS (overall)

Lid open ----- 154.94cm
 Lid closed --- 99.06cm x 57.15cm W x 88.9cm L

TYPICAL USES: This industrial aqueous parts cleaner is designed to clean parts, using Simple Green® Parts Washing Fluid or Simple Green® Concentrated Degreasers: Industrial Cleaner & Degreaser, Crystal Cleaner & Degreaser, Supreme High Performance Cleaner & Degreaser or Extreme Aircraft & Precision Cleaner.

SAFETY:

Not to be used with chlorinated or flammable solvents
 GFCI Protected

SIMPLE GREEN® 110 LITRE PARTS WASHER

The economical, safe, and innovative aqueous parts cleaning system

UNIQUE FEATURES

- Stand-mounted unit
- Heavy-duty industrial grade polyethylene plastic for long trouble-free operation
- 71.9L fluid capacity for effective cleaning
- Flexible Loc-Line® nozzle and flow-through brush with polyester filaments
- Stainless steel work shelf
- Industrial grade pump
- Clean-out plug for easy draining and simple filter attachment
- Separate heater and pump switches with on/off indicators
- Fixed thermostat is preset to deliver optimal cleaning temperature of 40°C
- Ground Fault Circuit Interrupter (GFCI) Protected

WHAT ARE THE KEY REASONS FOR LOOKING AT SIMPLE GREEN AQUEOUS SYSTEMS?

SAFETY, EFFECTIVENESS & ECONOMY: The Simple Green Parts Washer is designed to be used in conjunction with Simple Green degreasers that are non-flammable, non-caustic and readily biodegradable. The integrated heater in the machine further improves the cleaning performance of the product and allows for greater dilution, providing even further cost savings. Simple Green® Parts Washing Fluid is also a quick break degreaser making it suitable for disposal via oil water separators. In addition to these safety features the product rinses residue-free and is extremely effective at removing hydrocarbon build-up, grease, oil and dirt.

IS THERE A DIFFERENCE IN WATER-BASED CLEANERS SOLD IN TODAY'S MARKET?

Yes. There are vast differences in water-based cleaners. Some of the differences include performance, manner of working, safety hazards, the pH and disposal options.
