

TYPICAL CHARACTERISTICS:

Appearance	Clear aqua liquid
Physical State	Liquid
Flash Point	> 100°C
Boiling Point	98°C
Freezing Point	0°C
Specific Gravity	1.00 – 1.02
pH	9 – 10.5
Odour	No added odour
Density	8.34 – 8.67 lb/gal
Water Solubility	100%

SDS AVAILABLE AT: SimpleGreen.com.au

TYPICAL USES: Cleaning agent that can be used full strength or diluted out. It replaces most cleaner and detergents you're using now. **See label for additional uses.**

SAFETY: No special PPE requirements for handling. Safe work practices are recommended such as the use of safety glasses, goggles or shields. PVC or nitrile gloves are suggested for individuals prone to dry skin.

SIMPLE GREEN® TRUCK WASH Heavy-Duty Cleaner

A highly concentrated cleaning agent suitable for trucks, buses, trains, and any washable surfaces

UNIQUE FEATURES

- Not classified as hazardous according to Model Work Health & Safety Regulations and GHS Criteria
- No special PPE requirements for handling (safe work practices are recommended)
- Not classified as hazardous for transport
- Lower foaming so less water is required when rinsing
- Features Quick Break so is ideal in wash bays equipped with an oil/ water separator for waste water disposal
- 20 litres of concentrate will make 600 litres of ready-to-use product at a dilution of 1:30
- Non-toxic, readily biodegradable, non-abrasive, non-corrosive, non-flammable
- Rinses residue-free
- Made in Australia

APPLICATIONS

- Used to wash trucks, earth moving machinery, buses, trains, cars, boats, etc.
- Can be used with automated wash, pressure washer, foaming gun, spray pack, brush or sponge

DIRECTIONS FOR USE

Pressure wash:

For normal applications use a 10% concentration and 90% water. For heavily soiled areas use a 20% concentrate and 80% water applied through the chemical intake of the Pressure Washer.

1. Allow the foam to sit for 5 minutes then remove with high pressure clean water.
2. Always rinse off with clean water. If the solution dries before the final rinse, just wet again and wipe over then rinse. All residue will be removed.

Machine wash:

Apply via the machines venturi intake using the recommended 5% dilution.

Hand washing difficult soiled areas:

1. Apply to the vehicle surface using a soft brush, sponge or spray applicator.
2. Scrub the surface to loosen the dirt and rinse off.

Heavy Cleaning:

For every day cleaning and degreasing (walls, floors, tools, machines, motors, equipment, clothes) use 20% Truck Wash concentrate.
