**Skin contact:** Immediate and delayed symptoms - Not expected to cause skin irritation. If adverse effect occurs, rinse skin with

water.

Eye Contact: Immediate symptoms – Causes eye irritation. IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Immediate and delayed symptoms - May cause upset stomach. Drink plenty of water to dilute. See section 11. For

advice, contact a Poisons Information Centre on 13 11 26 (Australia Wide) or a doctor.

**First Aid Facilities:** Eye wash station or treatment recommended.

**Symptoms caused by exposure:** No expected acute, delayed or aggravated conditions or symptoms from exposure to mixture.

Medical attention and special treatment: Treat symptomatically. No testing or monitoring for delayed effect required.

# Section 5: FIRE FIGHTING MEASURES

**Suitable Extinguishing equipment:** Suitable- Use dry chemical, CO2, water spray or "alcohol" foam.

Unsuitable-High volume jet water.

**Specific hazards arising from the chemical:** Formulation is non-flammable and will boil until evaporated.

Special protective equipment and precautions for fire fighters:

Keep containers cool with water spray. Firefighters should wear self-contained breathing

apparatus and full fire-fighting turn-out gear and eye protection.

See Section 16 for NFPA information

#### Section 6: ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures:** Eyeglasses/ goggles and gloves recommended to prevent eye contact. Ensure sufficient ventilation. Area should be roped off to prevent slips and falls.

Environmental Precautions: Prevent runoff from entering drains, sewers, surface and ground water.

Methods and materials for containment and cleaning up: Cap or plug leaking containers. Cover all drains. Dike or soak up with inert adsorbent material. Dispose of in appropriate waste containers. See Section 13 for disposal considerations.

#### Section 7: HANDLING AND STORAGE

**Precautions for safe handling:** Before use carefully read the product label. Use of safe work practices are recommended to avoid eye contact and spills. Observe good personal hygiene, including washing hands after use and before eating. Remove contaminated clothing and protective equipment before entering eating area. Prohibit eating, drinking and smoking in contaminated area (eg. If container is damaged). Ensure adequate ventilation. Keep out of reach of children. Keep away from heat, sparks, open flame and direct sunlight. Do not pierce any part of the container.

Conditions for safe storage, including any incompatibilities: Store in cool, dry, well-ventilated area, removed from oxidizing agents, acids and foodstuffs. Ensure containers are adequately labeled and protected from physical damage when not in use. Do not store at temperatures above 109°F (42.7°C). If separation occurs, mix the product for reconstitution.
