

Kills 99.99% of Viruses and Bacteria

Following successful testing of our Simple Green Antibacterial Hospital Grade formula, we can now state that Simple Green Antibacterial formula kills viruses as well as bacteria. If you require further information please email info@simplegreennz.com

Biodet Services testing has shown that **Simple Green Antibacterial Hospital grade** received a pass for effectively killing 99.99% of common bacteria.

Eurofins testing has also shown that **Simple Green Antibacterial Hospital grade formula** received a pass for effectively killing 99.9% of common viruses.

Simple Green Hospital Grade formulation is a dilution of Simple Green Antibacterial Concentrate. The concentrate is diluted 1 part concentrate to 1 part water.

Tests were conducted on the Murine hepatitis virus (MHV) – 1 ATCC/VR-261 by Eurofins Australia www.eurofins.com.au. "Murine hepatitis virus (MHV) – 1 ATCC/VR-261 is recognised as a suitable surrogate virus strain for use in disinfectant efficacy tests to justify claims against **COVID-19**." TGA Australia
