Following successful testing of our Simple Green Antibacterial Hospital Grade formula, we can now state that Simple Green Antibacterial formula kills viruses as well as bacteria. If you require further information please email [info@simplegreennz.com](mailto:info@simplegreennz.com) Biodet Services testing has shown that **Simple Green DEEP CLEAN** received a pass for effectively killing 99.99% of common bacteria. Eurofins testing has also shown that **Simple Green DEEP CLEAN** formula received a pass for effectively killing 99.9% of common viruses. Tests were conducted on the Murine hepatitis virus (MHV) – 1 ATCC/VR-261 by Eurofins Australia [www.eurofins.com.au](http://www.eurofins.com.au). "Murine hepatitis virus (MHV) – 1 ATCC/VR-261 is recognised as a suitable surrogate virus strain for use in disinfectant efficacy tests to justify claims against COVID-19." TGA Australia.
